Description

Huffermann HWB 500 HD waste container, 24 m³, 2005. Veere, Netherlands. A 24 m³ waste container built by Huffermann, the German manufacturer that effectively set the standard for hook lift and skip container systems in Europe. Twenty-four cubic metres is the volume that covers construction waste, green waste, bulky household waste and general site clearance. Huffermann build quality means these containers stay square and stay watertight long after cheaper boxes have started to twist. Type — Huffermann HWB 500 HD waste container. Capacity — 24 m³. Year — 2005. Buying from Poppe Trucks We have been trading used commercial vehicles from Vlissingen for over two decades and we sell across Europe, Africa and the Middle East. Export documents, customs declarations and insurance are arranged here at our own premises, so you leave with the paperwork in order. Our yard sits within easy reach of the ports of Vlissingen, Antwerp and Rotterdam, which keeps shipping short and simple. We can collect you from the station and help arrange accommodation. We speak English, German, French and Spanish.
