Condition	Used
Reference	5601

Properties

Single weight	10.520kg
Load capacity	22.480kg
GVW	33.000kg
Length	1.402cm
Width	260cm

Technical specifications

Number of axes	2
----------------	---

Description

Pacton refrigerated semi-trailer, 2007, Chereau body with Thermo King SLXe Spectrum multi-temperature unit. Veere, Netherlands. Three names that each mean something on their own, and a great deal together. Pacton for the chassis, Chereau for the insulated body, the French builder most cold-chain operators rate above all others and a Thermo King SLXe Spectrum on the front. The Spectrum is the multi-temperature version: it runs separate compartments at separate temperatures from one unit. Chilled and frozen on the same trailer, on the same run, with no compromise on either. Distribution operators pay a premium for this specification because it removes an entire vehicle from the schedule. Body – Chereau insulated refrigerated body. Refrigeration – Thermo King SLXe Spectrum multi-temperature unit. Year – 2007. Buying from Poppe Trucks We have been trading used commercial vehicles from Vlissingen for over two decades and we sell across Europe, Africa and the Middle East. Export documents, customs declarations and insurance are arranged here at our own premises, so you leave with the paperwork in order. Our yard sits within easy reach of the ports of Vlissingen, Antwerp and Rotterdam, which keeps shipping short and simple. We can collect you from the station and help arrange accommodation. We speak English, German, French and Spanish. Visit us Poppe Trucks –Veersweg 83a, 4351NA Veere, The Netherlands Mon–Fri 08:00–17:30 | Sat 08:00–13:00 | Sunday closed +31 6
