Description

One truck, unlimited bodies. A hook lift turns a single chassis into a skip carrier, a tipper, a tank, a flatbed or a compactor, changed over in minutes without leaving the cab for long. AJK is a Dutch-built system with a strong reputation for surviving exactly the abuse this work involves, and parts remain readily available. Drivetrain — 340 hp, Euro 3. Chassis — 6x2 with AJK hook lift system. Condition — Odometer 469,034 km, which for a 2002 hook lift chassis is genuinely modest. These trucks work locally and stand still a lot, and the mileage reflects that. Price — € 13,950 excluding VAT.
